SLIMSOFT

Bollards

SLIMSOFT combines a refined, slim cylindrical form with carefully controlled, comfortable illumination. Designed to integrate discreetly within architectural and landscape settings, it enhances pathways and public spaces without visual intrusion. Its advanced optical system delivers smooth, uniform light with a **G0 glare rating**, ensuring a high level of **visual comfort** for pedestrian environments.

45 lm/W

Up to 45 lm/W
system efficiency

>85% recycle

*The non-recyclable materials are plastics and
some electronic components.
